Lux variant

PremiDoor 76

PremiDoor 76 further utilises our proven 76mm platform in the lift and slide door design, boasting opening capabilities up to 6.5m wide x 2.6m high with just two sashes. The increase in available light is also enhanced further with the fixed Lux variant with finishing options extending to colours, foiled finishes, AluClip exterior, along with the pioneering proCoverTec surface finish.

PremiDoor 76

Innovation and Energy Efficiency

PremiDoor 76 is a high performance large span door that offers impressive levels of thermal and weathering performance with a U_f -value of $1.4 \text{ W}/(\text{m}^2\text{K})$. An impressive U_D -value of $0.76 \text{ W}/(\text{m}^2\text{K})$ can also be achieved, meeting Passivhaus requirements. It's the perfect alternative to a bi-folding door, offering a far greater passage of light, further enhanced with the Lux variant, with the added benefit of a wide range of finishes and 2, 3 and 4 pane opening options. It's also been proven across Europe to withstand the harshest climatic conditions.

KÖMMERLING and parent company, profine Group, lead the way in Europe with their lead-free Greenline compound that was developed over 15 years ago. They were one of the first companies in the sector to remove lead in PVCu profiles and continue to operate to the latest ISO14001 environmental standard and also use recycled materials in certain dedicated systems.

- 1 Based on the proven 76mm, 6 & 7 chambered platform.
- 2 Capable of opening sizes up to 6.5m wide x 2.6m high, with just two sashes. Three & four pane variants also available.
- 3 Sash sightline of just 100mm offers a greater passage of light with the added option of the super slimline Lux variant.
- 4 Offers long-term functionality, with the state-of-the-art hardware and provides effortless movement of the sashes, with unique 'soft close' option now available.
- 5 Option for barrier free threshold inside/outside and low threshold option to be launched shortly.
- 6 Capable of glazing up to 48mm with dedicated double and triple glazed units.
- 7 Engineered cill offers impressive rigidity and thermal performance and can be flush mounted.

An Extensive Range of Colour

With over 40 rich colours and realistic woodgrains, there are a huge number of finishes in which to enhance the PremiDoor 76, along with 22 innovative proCoverTec surface finishes, which includes through the rebate or single sided options. Whatever the requirements, there's a KÖMMERLING finish to match.
