## System 76

System 76 is our new window and door platform and has been designed with cutting edge technologies and detailing. This among other market-defining capabilities ensures the best possible U-values and Passivhaus capabilities with proEnergyTec profiles, certified by ift Rosenheim. There are double and centre seal variants, both offering a wide range of flat colours, over 40 foiled finishes, several AluClip exteriors, along with the pioneering proCoverTec surface finish.

# System 76

## Innovation and Energy Efficiency

System 76 is arguably the most complete and comprehensive PVCu window system in Europe, reflecting KÖMMERLING's reputation for product design. Boasting  $U_f$ -value of 1.1 W/(m<sup>2</sup>K) in the double seal variant and 1.0 W/(m<sup>2</sup>K) in the centre seal variant as standard, provide unrivalled performance in this frame depth. A  $U_w$ -value of 0.76 W/(m<sup>2</sup>K) double seal and 0.73 W/(m<sup>2</sup>K) centre seal can be achieved for Passivhaus applications. It's also a product range that has been proven across Europe to withstand the harshest climatic conditions since 2014.

KÖMMERLING and parent company, profine Group, lead the way in Europe with their lead-free Greenline compound that was developed over 15 years ago. They were one of the first companies in the sector to remove lead in PVCu profiles and continue to operate to the latest ISO14001 environmental standard and also use recycled materials in certain dedicated systems.

- 1 Introducing the market-defining System 76, harnessing 6 & 7 chambered aluminium/PVCu hybrid design.
- 2 Option of double and centre seal variants.
- 3 Sound insulation up to 47 dB – thanks to large glazing options up to 48mm deep.
- 4 Weldable PCE or conventional EPDM seals in silver grey or black.
- 5 Wide range of glazing beads for double and triple glazing.
- 6 Available in flat white and ivory, foil laminate, proCoverTec surface finish and with PVCu/aluminium hybrid AluClip options.
- 7 Capable of achieving Passivhaus certified levels of performance with pre-foamed proEnergyTec profiles.

## An Extensive Range of Colour

With over 40 rich colours and realistic woodgrains, there are a huge number of finishes in which to enhance System 76, along with 22 innovative proCoverTec surface finishes, which includes through the rebate or single sided options. Whatever the requirements, there's a KÖMMERLING finish to match.
